December 10, 1992

Mr. Fred B. Stroud - OSC  
USEPA - Region IV  
345 Courtland Street, NE  
Atlanta, GA 30365

**Reference: Saad Trousdale Drive Site  
Transmittal of Analytical Data**

Dear Mr. Stroud:

As you requested and pursuant to Section VI Paragraph 8 of the Administrative Order by Consent (AOC) Docket No. 92-34-C, all analytical data received since our last transmittal of November 24, 1992 are provided with this letter. Data transmitted in this package include samples collected and analyzed from the former Oil/Water Separator (OWS) area between 11/16/92 and 12/1/92. Attached with the data are the chain-of-custody/request for analyses forms, which were submitted to Specialized Assays with the samples.

Please note that the sample results attached have not been subjected to full data validation procedures at this point. The quality control/quality assurance QA/QC validation process is not scheduled until the completion of site characterization/removal activities (see schedule in the RA/FI Phase II Work Plan). As such, these data should be considered as preliminary until DRE Remedial Services completes their QA/QC validation process in conformance with the project schedule and with the QA/QC requirements established in Section VI Paragraphs 7 and 8 of the AOC.

Respectively,  
de maximis, inc.

Bennie L. Underwood  
Project Coordinator
